Please find below a communication from the EXAMINER in charge of this application.

Commissioner of Patents

Newly submitted claims 26-42 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: originally presented claims were directed to inhibiting various cell adhesion molecule cleavage in brain tissue thereby treating various pantologies. Claims 26-42, herein presented, are directed to treating a host suffering from a condition characterized by an undesirable increase in synaptic responsiveness.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 26-42 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on March 12, 2002 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because originally presented claims were directed to inhibiting various cell adhesion molecule cleavage in brain tissue thereby treating various pantologies. Claims 26-42, herein presented, are directed to treating a host suffering from a condition characterized by an undesirable increase in synaptic responsiveness.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
